**Meriplex Communications Receives 2016 Backup and Disaster Recovery Award from
Cloud Computing Magazine**

Meriplex Cloud Solutions Honored for Improving Business Processes

HOUSTON, TEXAS (December 7, 2016) — **Meriplex Communications** announced today that [TMC](#), a global, integrated media company, has named **Meriplex Cloud Solutions** as a 2016 Cloud Computing Backup and Disaster Recovery Award winner, presented by TMC's [Cloud Computing Magazine](#).

The Cloud Computing Backup and Disaster Recovery Award recognizes technologies and vendors that have built cloud solutions that empower businesses small or large to remain active and productive under even the most challenging conditions, minimizing lost business opportunities.

“As **Meriplex** continues towards a goal of technical and service excellence, this award demonstrates that we are moving in the right direction. Meriplex is grateful and honored to have received this award and thanks TMC for their confidence,” said David Henley, President of Meriplex. “We are always looking for ways to be at the top of our industry and provide the best solutions to our valued customers.”

Meriplex Cloud Solutions Backup-as-a-Service (BaaS) and Disaster-Recovery-as-a-Service (DRaaS) platforms offer customers peace of mind that their business data is retained and available in a secure, remote, high quality data center with excellent customer care.

Meriplex BaaS allows for a customized multi-level solution, based on the customer's business needs, from an entire infrastructure server to individual file-folder restoration.

Meriplex DRaaS replicates business applications and data to a secure, remote data center allowing the Meriplex platform to serve as the main compute and storage environment in the event of a major equipment failure or natural disaster, ensuring same day minimal impact to the customer's continued business operations until the primary environment is restored. This solution augments the need for a business to support additional costly hardware, maintenance, and second datacenter.

“Recognizing excellence in the advancement of cloud computing technologies, TMC is proud to announce **Meriplex Cloud Solutions** as a recipient of the Cloud Computing Backup and Disaster Recovery Award,” said [Rich Tehrani](#), CEO, TMC. “**Meriplex Communications** is being honored for their achievement in bringing innovation to the market, while leveraging the latest technology trends.”

About Meriplex Communications

Meriplex Communications was co-founded in 2001 by Arthur and David Henley as a VoIP and Internet access service provider in Texas. As the marketplace evolved, the technology startup expanded its service offerings to include MPLS/SIP, SD WAN, Network and Endpoint Managed Services, and Hybrid Cloud Solutions. Meriplex is also a Cisco Gold Partner with multiple Masters Certifications.

About Cloud Computing Magazine:

Cloud Computing magazine is the industry's definitive source for all things cloud - from public, community, hybrid and private cloud to security and business continuity, and everything in between. This quarterly magazine published by TMC assesses the most important developments in cloud computing not only as they relate to IT, but to the business landscape as a whole.
