

FOR IMMEDIATE RELEASE

Meriplex Communications Broadens Its Managed Services and Cloud Offerings Portfolio with Acquisition of Houston, Texas-Based ITR Technologies

HOUSTON, July 23, 2012 -- Meriplex Communications, *The leader in high-speed data and VoIP networks*, today announced it has acquired privately held ITR Technologies. Headquartered in Houston, Texas, ITR Technologies provides innovative comprehensive solutions for server, application and desktop managed services from the cloud. Financial terms were not disclosed.

"Adding managed servers, applications, and desktop services from the cloud complements our existing portfolio of global voice, data and infrastructure managed services. Meriplex now has the depth to provide a comprehensive managed services platform to business customers of all sizes around the world. We will continue to invest in cloud-based technologies as we identify opportunities to deliver immediate value to our customers," said David Henley, President of Meriplex Communications.

In addition to offering global managed services solutions from the cloud, Meriplex Communications provides global MPLS, SIP trunking, and Cisco collaboration solutions. Meriplex is a Cisco Multinational Gold Partner with a Masters Specialization in Unified Communications.

### **About Meriplex Communications**

Founded in 2001 by the co-holder of an early VoIP patent #5526353, Meriplex Communications is a Texas-based enhanced service provider specializing in communication solutions for the enterprise market. The company's business is organized into four business units, including Network Services (Global MPLS and SIP solutions); Cisco VAR (Unified Communications, routing and switching, security, datacenter and wireless); Managed Services and Cloud Solutions; and Structured Cabling. Meriplex Communications services business customers around the globe. For more information, visit <http://www.meriplex.com>.
