

# IT Equipment Management Made Easy

Providing Meriplex clients enterprise-grade hardware, software, and IT services.

As your business grows and technology evolves, managing your IT equipment can be hard to keep up with. Our equipment lifecycle management team ensures that your technology remains up-to-date, properly maintained, and compliant with industry standards throughout its tenure.

## Benefits of Meriplex Equipment Lifecycle Management

### Increase Productivity

Two out of three employees say outdated technology impacts their productivity. 60% report work-issued devices prevented work completion.

### Reduced Cost

Lower costs by covering all aspects (installation, software, networking, etc.) beyond just hardware. Plus, you benefit from national buying power.

### Reduce Cyber Risk

With 13K+ new malware threats detected per hour, older devices are more vulnerable to security breaches and malware and may no longer receive crucial security updates.

### Boost Employee Satisfaction

Modern IT systems contribute to a better work environment, reducing turnover and attracting top talent.

## Comprehensive Solutions that Streamline Your Business

Our all-in-one approach covers everything from procurement and installation to ongoing maintenance and upgrades. When you partner with Meriplex you remove yourself from the day-to-day hassles of equipment management and regain the time to make strategic business decisions.

# Services

## Procurement

Source and acquire hardware and software components tailored to your business needs and budget.

## Warehousing

We'll store, ship, and return equipment while tracking inventory, assets, and warranties.

## Installation

Deploy and configure equipment efficiently to minimize disruption to your operations.

## Compliance

Stay compliant with warranties, licensing agreements, and industry regulations to avoid penalties and risks.

## End-of-Life Management

Properly retire and dispose of outdated equipment in an environmentally friendly and secure manner.

## Maintenance

Regularly inspect, maintain, and update equipment to ensure optimal performance and longevity.

# Products

Technology is ever-evolving, and so are we. Meriplex remains at the forefront of the latest advancements in IT, cloud, and cybersecurity, continuously innovating to provide products and solutions that are agile and innovative.

### Hardware

Laptops, desktops, monitors.

Security cameras, surveillance solutions.

### Peripherals

Mice, keyboards, webcams, mics, speakers, headphones.

### Data Center and Networking Equipment

Servers, backups, and data storage (SAN).

Firewalls, switches, wireless access points.

### Software

Licensing, setup, and renewals.

Employees using outdated technologies are **136%** less productive and **450%** more likely to leave.

## Get Started Today

Don't let the complexities of equipment management and maintenance bog you down or add unnecessary cost to your bottom line.
